PROFESSIONAL SUMMARY

Results-driven Data Analyst with 2+ years of experience delivering high-quality analytics and reporting solutions in MNC environments. Currently working as a Production Analyst at EXL, specializing in data extraction, ETL processes, and automated MIS reporting using SQL, Python, Excel, and Power BI. Strong expertise in KPI analysis, dashboard development, and data validation across PostgreSQL and Snowflake platforms. Known for analytical thinking, process optimization, and transforming complex data into actionable insights for business decision-making.

WORK EXPERIENCE

- Production Analyst – EXL**
01/2026 | Pune
 - Build and maintain ETL pipelines using SQL, Python (Pandas, NumPy), and Excel Power Query to extract, transform, and analyze large operational datasets from PostgreSQL and Snowflake environments.
 - Develop automated MIS reports and analytical dashboards using Power BI and Python visualization libraries (Matplotlib, Seaborn) for KPI, SLA, and productivity tracking.
 - Perform data validation, reconciliation, and root cause analysis on production datasets to ensure data integrity, consistency, and compliance with client requirements.
 - Utilize advanced SQL techniques (joins, CTEs, window functions, aggregations) to support ad hoc analysis, performance optimization, and business insights.
- Data Analyst - Wipro**
10/2023 – 01/2026 | Pune
 - Extracted, transformed, and analyzed structured datasets from client systems and Tableau servers using SQL, Excel, and automated reporting workflows.
 - Designed and developed interactive Power BI dashboards with DAX for KPI monitoring, operational reporting, and executive decision support.
 - Automated recurring MIS and performance reports using SQL queries, Power Query, and Excel macros, reducing manual effort and improving reporting accuracy.
 - Performed data cleansing, validation, and reconciliation to ensure high data quality and compliance with client and business requirements.
 - Conducted ad hoc analysis and business intelligence reporting to support cross-functional teams in identifying trends, risks, and optimization opportunities.
 - Collaborated with stakeholders to gather requirements, document business logic, and deliver scalable analytics solutions aligned with organizational goals.

EDUCATION

- MCA - Data Science**
JECRC University
07/2021 – 07/2023
- BCA**
Chandigarh University
08/2016 – 08/2019

LANGUAGES

- English (Professional)
- Hindi (Native)

AWARDS

Quarterly Excellence Award - Q1 2024 & Q1 2025 (Wipro)
Recognized as Best Performer for reporting accuracy, workflow compliance, and operational efficiency.

PROJECTS

- HR Analytics Dashboard**
Tools: SQL, Power BI, Excel
 - Developed SQL queries for HR metrics (e.g., 1470 employees, 16.1% attrition rate).
 - Designed Power BI dashboard to visualize attrition by department and age group.
 - Implemented ETL processes with SQL for accurate data transformation and validation.
- Store Sales Analysis Dashboard - SQL, Excel**
Tools: SQL, Excel
 - Analyzed customer purchase history to identify trends and high-value customer segments.
 - Developed custom SQL queries to uncover seasonality and metrics for performance tracking.
 - Presented findings in Excel dashboards to support business intelligence decisions.

SKILLS

- SQL Development**
Complex Queries, Joins, Subqueries, Indexing, Views, Stored Procedures
- Excel & Reporting**
Pivot Tables, VLOOKUP, INDEX- MATCH, Power Query, Dashboarding, Automation
- ETL & Data Handling**
Data Modeling, Transformation, Cleansing, Validation, Data Quality
- Tools & Technologies**
MySQL, Power BI, Excel, Tableau
- Power BI**
DAX, Report Building, KPI Dashboards, Reporting Automation, Data Visualization
- Python**
Data analysis and automation (Pandas, NumPy)
Visualization and reporting (Matplotlib, Seaborn)
EDA and scripting (Jupyter, basic Scikit-learn)

Soft Skills

Problem Solving, Critical Thinking, Communication, Stakeholder Management

CERTIFICATES

- Google Data Analytics Professional Certificate - Coursera
- Advanced Excel Certificate - LinkedIn Learning
- AI Dashboards using Microsoft Power BI – Skill Nation
- Tata Group Data Analytics Job Simulation on Forage - June 2025 - Tata iQ

ADDITIONAL SKILLS

- Business Intelligence Reporting
- Metrics Tracking and KPI Analysis
- Stakeholder Collaboration &
- Requirement Gathering
